

Marwan Ayman Abdel-ati

Healthcare IT Engineer

📍 Egypt ,Cairo ✉ marooo.ayman.10@gmail.com ☎ 01096303773

SUMMARY

Motivated and detail-oriented Junior Healthcare IT professional with hands-on experience supporting PACS (Picture Archiving and Communication Systems) and RIS (Radiology Information Systems). Skilled in troubleshooting imaging workflows, user support, and system administration to ensure seamless healthcare operations. Knowledgeable in healthcare IT standards such as DICOM and HL7, with a strong foundation in networking, storage, and backup solutions. Demonstrates excellent problem-solving abilities, teamwork, and adaptability in clinical environments. Eager to contribute to improving radiology workflows, data integrity, and patient care through effective IT support.

EXPERIENCE

Junior Software Tester & Desktop Developer, UnderControl Cairo Egypt:

Responsibilities:

Dec 2023– Apr 2024

- Developed and maintained desktop applications using Python and PyQt.
- Implemented user-friendly interfaces and optimized application performance.
- Collaborated on debugging, testing, and deploying software solutions.
- Performed manual software testing to ensure functionality and quality assurance.
- Created and executed test cases and reported defects using structured documentation.
- Collaborated with the development team to fix bugs and improve performance.
- Ensured alignment between software requirements and final deliverables.
- Fundamentals of Data Analysis – FWD (Udacity)
- Introduction to Software Testing Concepts & Techniques – Mahara Tech
- Technical Support Fundamentals – Google (Coursera)
- Automation Testing using Selenium and Cypress – Tarek Roashdy (Udemy)
 - Core Team Member, Python – GDSC Benha (Feb 2022 – Present)

Key Projects:

- Ensured alignment between software requirements and final deliverables.
- Bank system (Software Testing).
 - Purpose: It is about a system for Bank to make the client Edit Account.
 - Tools: Manual testing (Test case-bug report) & Excel spreadsheet.
- Telecom system (Software Testing).
 - Purpose: It is about a system for Telecom to Add Tariff plan to customer.
 - Tools: Manual testing (Test case-bug report) & Excel spreadsheet.
- Coffee System using Python – GUI app for cashier operations using Tkinter and SQL.
- Information System for Poorest Villages – Web-based support system using HTML/CSS/JS/PHP/SQL.
- CGRAM using Python – Matrix device output simulator using Tkinter Canvas and manual testing.

Junior Healthcare IT engineer, Global Technology FujiFilm Cairo Egypt:

Responsibilities:

June 2025– present

- Assisted in implementation and support of Fujifilm Synapse PACS and RIS across multiple hospitals and radiology centers.
- Installed, configured, and integrated PACS servers, diagnostic workstations, and radiology workflows.
- Supported HL7 & DICOM integration between PACS/RIS and HIS.
- Implemented and administered VMware ESXi and vCenter to host PACS/RIS infrastructure.
- Configured and managed SAN/NAS storage solutions integrated with PACS/RIS environments.
- Designed and executed backup and recovery strategies for PACS databases and imaging data.
- Conducted user training sessions for radiologists and technical staff.
- Provided L1/L2 support, troubleshooting, and performance tuning for PACS/RIS environments.

Key Projects :

- Mansura university hospital: Supported PACS/RIS/3D implementation and integration across multiple hospitals.
- Ministry of Health Hospitals (Egypt): Supported PACS/RIS implementation and integration across multiple MoH hospitals.
- SCUH: Supported PACS/RIS/3D implementation, integration and 24/7 user support.
- Abo Redis: Supported PACS/RIS/3D implementation, integration and 24/7 user support.
- Tahar scan: Supported PACS/RIS/3D implementation, integration and 24/7 user support.
- EGY Scan: Supported PACS/RIS/3D implementation, integration and 24/7 user support.
- Al-Azhar Hospital : Supported PACS/RIS/3D implementation, integration and 24/7 users support.

EDUCATION

B.Sc. in Information Systems, Faculty of Computers and Artificial Intelligence, Benha University

2019 –2023

PROFESSIONAL COURSES

- System Administration
- SQL (Datacamp)
- Database (SQL-NoSQL)
- Fundamentals of Data Analysis – FWD (Udacity)
- Advanced Database (Pl-SQL)
- Windows & Linux Server Administration
- Network Configuration and Troubleshooting
- Active Directory & User Permissions
- Backup and Recovery Solutions
- IT Support and Helpdesk Operations
- Healthcare IT : PACS/RIS (Fujifilm Synapse), DICOM, HL7, HIS Integration, Radiology IT workflows

Technical Skills

- PACS/RIS administration and support
- DICOM and HL7 standards
- User training and troubleshooting
- Networking (LAN/WAN, TCP/IP)
- Storage and backup solutions
- System monitoring and maintenance
- Healthcare data security and compliance

Soft Skills

- Quick learner, Problem Solving, Analytics, Leadership, Organizer, Time Management, Speaker, Collaborator, instructor.

Languages

- Arabic
- English
